

METAL HALF STEPS

OUR METAL HALF STEPS PREVENT TRIPS AND FALLS AND CAN ACCOMMODATE A WALKING FRAME.

K30 METAL HALF STEP

The K30 Half Step is strong and stable and features slip resistant feet which can be adjusted to the level of the ground. It also has a slip resistant tread on the top for added grip.

Where a walking frame is needed, you may find the K30L Half Step helpful, as it has a larger surface suitable for the user and their walking frame.

The new handles may be retro-fitted to the metal steps to add an extra element of safety and confidence. This is particularly helpful to add balance when stepping down.

LP/K30	Standard Metal Step
LP/K30L	Large Metal Step
LP/K30H	Handle for Standard Metal Step
LP/K30LH	Handle for Large Metal Step

190KG / 30 STONE / 420LBS

GETTING THE BEST FROM YOUR HALF STEP

- With many of our Half Steps a handle may be added.
- Should you choose a step only, you might wish to consider adding a grab bar
- A grab bar like our Prima Outdoor Grab Bar positioned next to the step, can help the user to make a steady transfer.
- We recommend treading centrally onto the step surface rather than onto the edges of the step, ideally turning sideways using both hands on the grab bar.
- All of our half steps fit the whole width of a door, for maximum ease and safety.

METAL RAMP WEDGE

The access ramp gives that little bit of extra help at a threshold. Really helpful with walker frames, trollies and scooters

	HEIGHT
LP/RW2/01	1 inch (2.54cm)
LP/RW5/01	2 inch (5.08cm)
LP/RW9/01	3 inch (7.62cm)
